

Egg-citing Thank You Card!

Here is a follow-up activity for your trip to the emu farm - saying thank you to the farmer for taking the time to host your group!

Legal size paper makes a nice large emu egg card, but you can resize the template to the left to fit whatever size paper you are working with. Cut the egg template out and use it to trace egg cards for your class.

Areas labeled "G" should be painted or colored a dark green. Areas inbetween can be decorated with drawings of their trip to the emu farm or the student can write a thank you note to the farmer for hosting the class.

When the paper is folded, the card looks like a large green egg.

Our farmers love to hear from the kids, especially what parts of the farm tour they liked the best.
