### 2020/2021 AEA Committees

The AEA Board agrees that as long as a spouse, family member, partner or significant other is a member, they can serve on a committee, while only a voting member may serve as a director on the AEA board.

The person listed after the committee heading is a board member and the liaison for that committee. The liaison sets the agenda for the committee and reports to the board. Liaison should be an active member of the committee. The second person listed is the committee chair that works with other committee members. The president is included in all committees. Members are needed for all committees.

**AEA Committees Chair and Members** – Board liaison is listed first. Chairman is listed after the liaison and works with other committee members.

- NOTE** - The **Promotions & Advertising Committee** will be used for a press release and promotion campaign, "if", favorable results are found with the human research that is now being done.
- It was suggested that we start submitting generic press releases (recycled and updated old press releases) about emus and the emu industry on a regular basis, leading up to the published results of the human research. This will have the press familiar with the emu industry and ready to view the research results as big news.
