

And, don't forget that your state election results are news, too. Send a press release and a picture, if you have one, whenever elections take place.

FOR IMMEDIATE RELEASE

Emu Association Election Results

The (State Association) (Ass'n letters), announces the following officers and board members for the (year) term: (name, Town) - president; (name, Town) - vice-president; (name, Town) - secretary; (name, Town) - treasurer; (name, Town)- director and (name, Town) - director.

(Ass'n letters) membership meetings for (year) are scheduled for (date) at (location), (date) at (location) and on (date) at (location). The (Ass'n letters) is an affiliate of the American Emu Association (AEA), a national emu association that supports the emu industry by promoting public awareness of emu products and developing the leadership to advance the growing emu industry.

Emu, large birds that are related to the ostrich, are farmed across the nation for the production of "low fat, high protein, red meat", "deep penetrating and moisturizing emu oil", "soft and supple leather", "unique double veined feathers" and "beautiful large green eggs that are sought after by artists and jewelry makers".

As people look for nutritious, red meat alternatives, Emu Meat deserves a second look. University of Wisconsin - Madison research shows that Emu Meat (a dark, red meat, mild flavored and tasting much like beef) ranks high in nutrition and lower in saturated fat, when compared with beef, bison, elk, ostrich, turkey and venison.

Emu Oil contains the Omega 3's and 6's along with other fatty acids that nourish the skin, moisturize deeply and help the skin cells to rebuild themselves.

Emu Meat and Emu Oil Products are available throughout (states or region).

For information about emu or emu products in (state or region) visit the (State Association ()) website <http://ass'n website> or phone: (phone number) .
