

## **GUEST BOOK PAGES**

If you are in need of a quick guest book for your visitors to sign, look no more. Page 77.) has the guest book pages that I have used each year to keep track of visitors for both big events and individual tours.

Print out all the page 1s first, then flip them over and print out the page 2s. All you will need then is a hole punch and a 3-ring binder. This will give you a very nice way to look back to find out how far your visitors traveled and just how many people visited your farm throughout the year.
